Cuentos Orientales (Narrativa (Punto de Lectura)) Professor Marguerite Yourcenar

Marguerite Yourcenar, one of the most eminent writers of the twentieth century, takes us on a journey of discovery where the mythical Orient is revealed through legendary stories from places like Greece, Asia, and the Balkans. An old artist disappears into the ocean he just finished painting; a Greek hero who seduces women and waves alike, lives the destiny of those gifted with the ability to behold sea-nymphs; the goddess Kali, ruler of the dark power of shadows, gives herself to any man but never smiles; the mad love of a woman for her husband's murderer. Passions, secrets, and wisdom come together to create a universe free of culprits and victims, where only life and its unfathomable mystery exist.
