### **Motorguide XI5 55lbs 12v 48"**

Motorguide is excited to introduce the new Xi5 wireless trolling motor. The Xi5 marks a key milestone in our history. It is the culmination of a renewed focus and significant R&D investment to design, engineer and manufacture best-in class trolling motors.

The Xi5 is designed to exceed the expectations of today's discriminating customer. It's engineered to be reliable every day and durable over the long haul. Unlike the competition the new Xi5 includes wireless capability right out of the box, anglers can command precise motor and steering control from anywhere on the boat. A wireless foot pedal is standard with freshwater models and a hand-held remote is standard with saltwater models. Plus, we've made it stealthy quiet and silky smooth. And you'll also see thoughtful details that make it safe and easy to use
