Binding: Paperback

Synopsis

The enigmatic memoirs of an elephant are illustrated with collages as surrealistic as the text they accompany. This is a book of today that invokes the best of the avantgardes and isms of the 20th century, with a visual impact as surprising and chaotic as an elephant walking into a china shop. In fact, it is a tale to lull adults to sleep and wake children up, or vice versa, exactly the opposite, or both, or none of the above.
