Kurzbeschreibung

Moving into the final years of Harvard Medical School, Darcy Wright matures with every fatigue-riddled experience she endures, however, the rigorous schedule of clinical rotations clashes with her attempts to navigate her sanity and her happiness. Olivia, her temperamental girlfriend with too many rules, is an asset amidst the chaos; someone she can rely on and someone she can support in return, but can their relationship withstand the intensifying pressure?

Tested by exhaustion and Olivia's troubled past, Darcy does what she can to hold on to the woman she loves, but misunderstandings and frayed emotions expose and amplify rifts between them. Surely no relationship can withstand the ambitious tunnel-visioned life of a medical student?

New chances, new friends, and a new understanding of how precious life is helps Darcy through the maze of med school. The question is, can she make it out the other side without irreparable psychological damage? And when everything seems to fall apart, will Olivia still be with her at the end? Kurzbeschreibung
